Hi, Jason,

I'm generally available only on Monday and Tuesday of next week, the 6th and 7th, and then I'm out of the office for the rest of the week. However, I'm generally available all of the following week, the 13th through 17th, with the exception of Wednesday afternoon. However, I'd prefer to not schedule the call for Wednesday morning, the 15th. Thanks.

Terry

Hi Terry,

FYI, is there a time that would be better for you than others? I will be on another site next week but available.

Thanks,

Jason R. Cashmere

Jason / Steve:

Ohio EPA would like to set-up a conference call to discuss these questions with your attorney next week. Can you provide your availabilities for next week?

Steve, I understand you will not be unavailable.

Thanks, Frank

No apologies necessary Frank. This just came up when we talked with our attorney yesterday to try and get past the blocks.

At least I know now not to call you and try to explain things a little better.....

I am working next Monday and part of Tuesday, then I am off for St Croix for work and I do not know my ability to check messages yet.

Please coordinate with Jason Cashmere and he will work with Jim Augustyn as I also informed Jim of the situation

Thanks,

Steve Wolfe

Steve – My apologies as I was out of the office yesterday and headed out again this morning. I'll contact our Central Office concerning your questions and get back with you ASAP. Ohio EPA's attorney on this is Andrea Smoktonowicz, 614-644-3180.

Hi Frank

Our Action memorandum for Warren Steel is being held up with our attorneys as they have some questions concerning ongoing work/enforcement actions

This pertains to the whole site; regardless whether you consider it for Copperweld, Optima Specialty Steel, or Warren Steel Holdings as it pertains to the site as a whole

Can you explain exactly what ongoing actions are occurring at the site

Can you explain exactly what enforcement actions are ongoing and expected outcome (i.e. are you sending out NOVs and they are being ignored, are you litigating with any entity, etc)

Can you explain (and this pertains to remedial) why "OEPA has indicated that the site is not a priority for NPL Site Assessment at this time because of on-going state actions." – which is what was told to our remedial program.

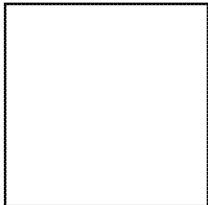

If you have someone else that can better explain this – can you get Jason and I in touch – if there is an attorney who should discuss the enforcement related information that would be helpful too and I will have my attorney talk to them

Sorry but it gets held up when there are ongoing enforcement actions as well as other actions.,....

Thanks,

Steve Wolfe
